Professional Summary

Systems Engineer with experience in L1/L2 technical support, server and network administration, and performance monitoring. Former Amazon Employee Resource Center specialist supporting North and South American operations through case follow-up, self-service application guidance, and policy compliance. Trained in JavaScript, software testing, and Azure fundamentals, with INA-certified C1 English and a focus on troubleshooting and customer service.

Technical Skills

Support and operations: Hardware, software, and connectivity troubleshooting; servers and workstations; installations, upgrades, preventive maintenance; network performance and availability monitoring.

Networks and security: TCP/IP, IPv4/IPv6, VLANs, routing, switching, VPNs, secure remote access; cybersecurity fundamentals. Development and data training: JavaScript, algorithm design, software test planning and execution, Microsoft Access, Power BI, Azure fundamentals; Linux fundamentals through IT Essentials.

Professional Experience

Robotics and Computer Science Instructor | Colegio Ecoturístico del Pacífico | Feb 2025 - Present

- Teach robotics and programming through STEAM projects, explaining technical concepts and developing computational thinking and analytical problem-solving skills.

IT Infrastructure and Support Technician | Inter-Tech Costa Rica | Aug 2019 - Nov 2025

- Provided L1/L2 support to troubleshoot and resolve hardware, software, and connectivity issues.
- Administered servers, enterprise networks, CCTV systems, and workstations; performed installations, upgrades, and preventive maintenance.

Network and Systems Monitoring Technician | STS Security | Jan 2023 - Nov 2025

- Monitored network performance and availability to identify issues and help minimize downtime.
- Managed VPN connections and secure remote access; prepared technical reports to support optimization.

Employee Resource Center Specialist | Amazon | Oct 2020 - Aug 2023

- Supported HR operations across North and South America, handling inquiries, HRIS documentation, and case follow-up in accordance with policies.
- Provided remote guidance on self-service applications and followed security and privacy procedures.

Customer Service and Quality Control Manager | GAIA Hotel and Reserve | Jan 2012 - Dec 2018

- Managed service quality and staff development; implemented continuous improvement initiatives to improve customer service and operational efficiency.

Education

Bachelor's Degree in Systems Engineering | Universidad Internacional San Isidro Labrador | 2023

Professional Master's Degree in Education Sciences with an Emphasis in Teaching | UISIL | 2026

Selected Technical Training

INA: Software Quality Controller, 561 hours (2023); Computer Networking CCNA curriculum, 280 hours (2023); Azure Fundamentals, 50 hours (2023); Microsoft Access Databases, 50 hours (2023).

Cisco Networking Academy: CCNAv7 Introduction to Networks, Switching Routing and Wireless Essentials, Enterprise Networking Security and Automation; IT Essentials; Cybersecurity Essentials.

Languages

Spanish: Native | English: Advanced C1, INA certification (2024)
